

SPECIFICATIONS/DATA

Cell Site Enclosure

BOX ASSEMBLY NO.	DIMENSION A	DIMENSION B	Hub Cabinet
PG4848Z511	19" (483 mm)	18 1/8" (460 mm)	CSC
PG4848Z505	10" (254 mm)	18 1/4" (464 mm)	CFL

Dimensions & weights in parentheses are metric equivalent.

QUAZITE® cell site enclosures allow cellular providers easy access to their cable lines and provide plenty of room for the addition of new lines. Sixteen 4" terminators enable providers to easily add new feeder cables to existing sites. The terminators also reduce the risk of disturbing existing service when adding new cables because installers can clearly see where other cables are entering the box.

QUAZITE® cell site enclosures also make equipment changes and upgrades easy and cost effective. Poured-in-place pads must be completely replaced if changes and upgrades became necessary, but QUAZITE® cell site enclosures feature replaceable covers and an open area inside the enclosure. As a result, new cable lines can easily be added without replacing the pad. Also, providers only need to replace the covers if cabinets with new bolt patterns are installed.

Information shown in catalog is a partial listing. If pad or throat size desired is not listed, contact Quazite field sales office.
